Cork, shaping the future through sustainability

Cork comes from the bark of the cork oak tree (*Quercus Suber* L). It is a plant tissue, 100% natural, which covers the trunk and branches.

One cubic centimeter of cork contains about 40 million cells. Cork is known as “nature’s foam” due to its alveolar structure.

Cork is sustainably harvested by specialized professionals without damaging the trunk. The cork oak tree re-grows the outer bark layer and is harvested once ever 9 years over the course of its lifetime, which is about 200 years. Cork is a natural material which is both renewable and recyclable.

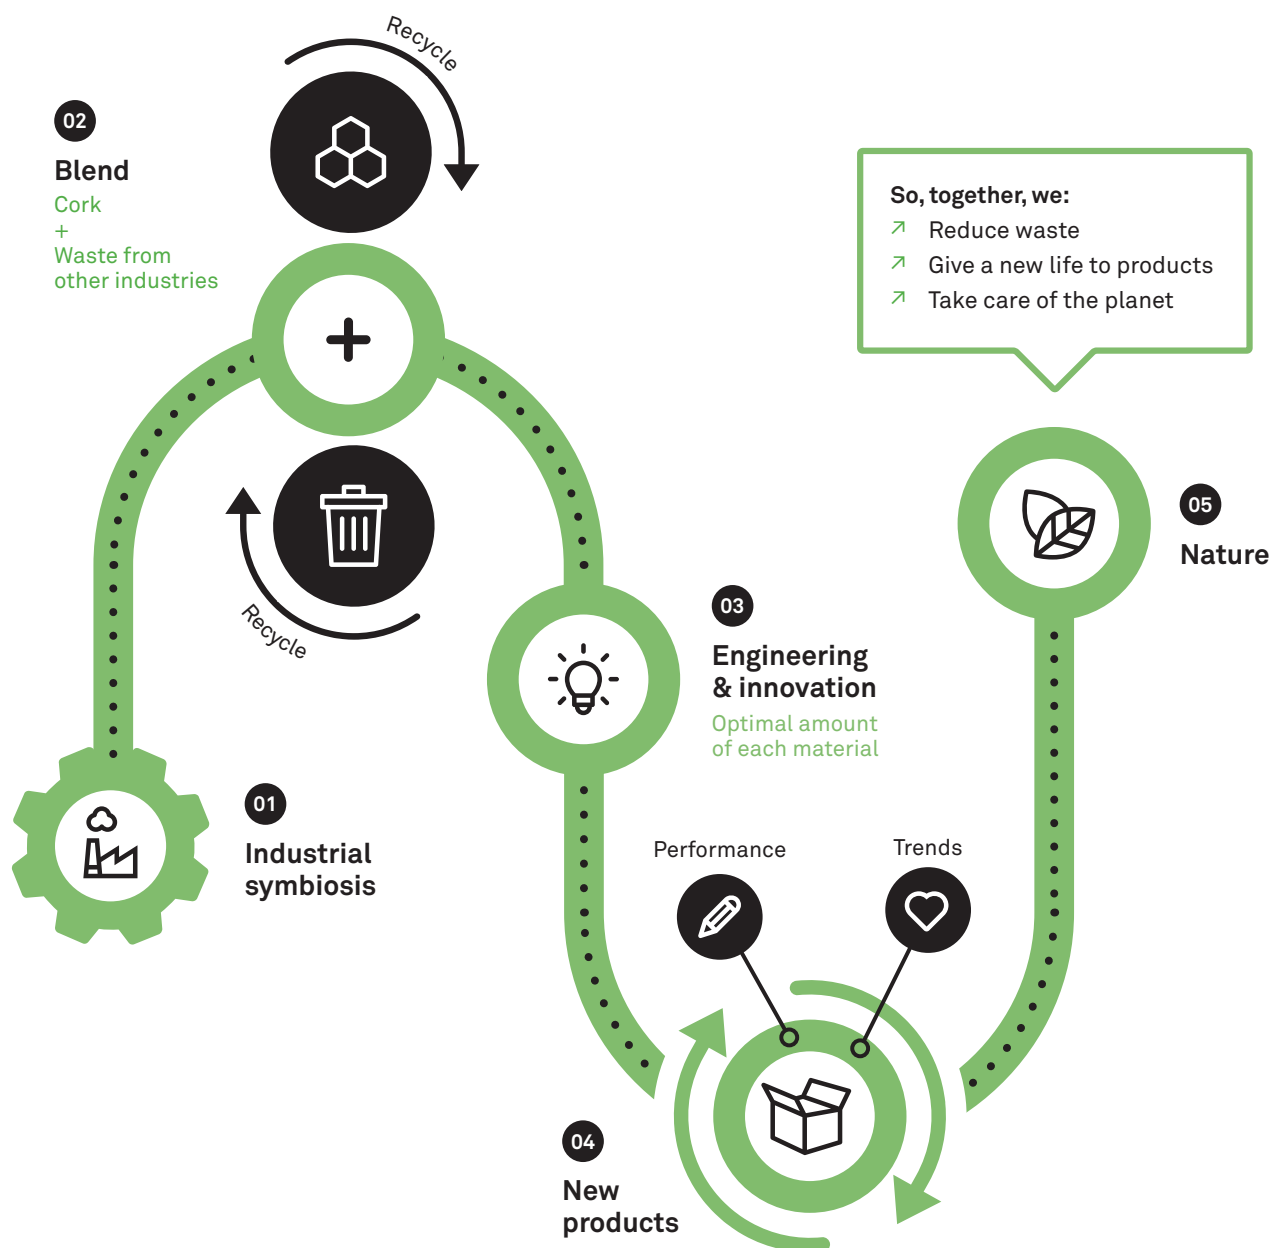

We have always been circular.

Amorim Cork Solutions - a Corticeira Amorim company - was founded in 1963 to add value to cork not used in the cork stoppers industry and to cork stoppers at the end of their life.

Since then, in the framework of our innovation culture, we have discovered and identified other materials from other industries (industrial symbiosis) to blend with cork and leverage its attributes.

For this purpose, we use different materials from the footwear, automotive and packaging industries. We give a new life to materials that otherwise would be wasted.

Creative interiors

Recycled and sustainable accessories for decorative applications

Achieve a unique, natural look for the walls of your home, full of personality, by using our decorative panels. Also explore the versatility of our multipurpose rolls for a variety of different applications.

A natural, elegant and modern material, cork makes spaces more welcoming and inviting while also adding thermal comfort, reducing noise and increasing energy savings.

The **Cork Inside** seal guarantees that this product contains, in its cork formulation, a 100% natural and recyclable material with unique technical properties.

Cork Inside formulations combine cork with other materials and are developed and rigorously tested by Amorim Cork Solutions' innovation and engineering teams. **Cork Inside** responds to stringent requirements and guarantees the performance required for its application.

Tangram

NEW PRODUCT

MULTICOLOR CORK TANGRAM

Multicolor cork tangram is a wonderful toy that will inspire children's intelligence and give new life to a room.

The puzzle enhances children's cognitive skills, visual memory, shape concepts, hand-eye coordination, openness and divergent thinking. The puzzle is not just for kids, you'll also love playing with it! It helps children learn basic logical and mathematical concepts, and can increase communication and emotion between parents and children.

You can also use it to decorate a workspace or a children's room, with a variety of shapes (over 1000 different figures) simply for decoration purposes, or as a memo board.

This package contains cork and multicolor pieces.

COMMON USES

- Adhesive cork-based tiles
- Decorative and toy function
- Easy and quick to use and apply
- Eco-friendly

Thickness
max. 20 mm

Quantity
1 unit per pack
(7 pieces)

Multicolor
